Hyderabad | vijaykrishnaneeli@gmail.com | 6301036123 | linkedin.com/in/vijaykrishnaneeli/

## Professional Summary

---

Software Engineer Intern with experience building scalable backend systems, log analytics platforms, and ML-powered monitoring solutions using Java, Spring Boot, Python, Elasticsearch, and OpenSearch. Strong foundation in DSA, distributed systems, and cloud-native backend development.

## Skills

---

**Languages:** Java, Python, SQL

**Frameworks:** Spring Boot, Spring Data JPA, Node.js, Express.js, Vue.js, ReactJS, HTML, CSS

**Databases/Search Engines:** MySQL, PostgreSQL, Elasticsearch, OpenSearch, MongoDB

**Cloud/DevOps/Tools:** AWS, Docker, Podman, Git, Maven, Postman, RabbitMQ, Kafka, ELK Stack, OpenSearch

**Concepts:** RESTful APIs, System Design, Microservices Architecture

## Education

---

**Vellore Institute of Technology-AP**, B.Tech in Computer Science and Engineering 10/2022 – 06/2026

- GPA: 9.30/10.0

- **Coursework:** Data Structures, OOPS (Java), Database Management Systems, Operating Systems, ML

## Experience

---

**Garmin Technologies**, Software Engineer Intern – Hyderabad, India 12/2025 – Present

### Scalable Log Aggregation System

*Java · Spring Boot · Elasticsearch · OpenSearch*

Built a Spring Boot pipeline to migrate logs from Elasticsearch to OpenSearch, extending retention from 10 to 90+ days for historical analysis.

- Designed dynamic query generation supporting 10+ teams and 80+ applications without deployment-specific changes, which is also fault-tolerant scheduled processing system with 99.9% uptime, reducing storage costs by ~75%.

### Error Clustering & Alerting Platform

*Python · OpenSearch · ML · Vector Embeddings · Vue.js*

- Developed an ML-powered Error log clustering system using sentence embeddings and OpenSearch pipelines, reducing clustering time by ~80%.
- Built intelligent cluster merging and a Vue.js dashboard, reducing duplicate investigations by ~50% and root-cause analysis time by ~65%.

## Projects

---

**Axiom – Multi-Tenant Technical Assessment SaaS** [github.com/axiom](https://github.com/axiom)

- Built a full-stack multi-tenant technical assessment SaaS using **Spring Boot**, **React**, **PostgreSQL**, **TypeScript**, and **JWT**, enabling recruiters to create, publish, and manage online assessments.
- Built responsive React dashboards for **Platform Admin**, **Recruiters**, and **Candidates**, integrating JWT-secured REST APIs for authentication, assessment management, and candidate assessment workflows.

**AI Support Assistant for Slack (RAG)** [github.com/slack-support-bot](https://github.com/slack-support-bot)

- Built an end-to-end RAG pipeline for threaded slack conversations using Gemma4-31B to extract structured query-solution pairs and self-update the knowledge base.
- Implemented semantic search with FAISS, FastEmbed, and LangChain RetrievalQA, integrating Slack Bolt and a custom LLM wrapper for context-aware threaded replies.

## Certifications

---

**AWS Certified Cloud Practitioner** — Certified in AWS Cloud Practitioner, covering cloud architecture, security, networking, pricing, and monitoring.

May 2025
